Highly Capable Programs

In order to develop the abilities of each Highly Capable Program student, the district will offer a highly capable program which provides kindergarten through twelfth grade students selected for the program access to basic education program that accelerates learning and enhances instruction. The framework for such programs will encompass, but not be limited to, the following objectives:

A. Expansion of academic attainments and intellectual skills;
B. Stimulation of intellectual curiosity, independence and responsibility;
C. Development of a positive attitude toward self and others; and
D. Development of originality and creativity.

The board will annually approve the district’s highly capable plan including: the number of students the district expects to serve by grade level; the district’s plan to identify students; a description of the highly capable program goals; a description of the services the program will offer; an instructional program description; a description of ongoing professional development for highly capable program and general education staff; program evaluation; a fiscal report; and assurances that the district is legally compliant.

The superintendent/designee will establish procedures consistent with state guidelines for nomination, assessment and selection of children of demonstrated achievement or potential ability in terms of general intellectual ability, academic aptitude and creative or productive thinking.

Highly Capable Programs

Definition
Highly capable students are students who perform or show potential for performing at significantly advanced academic levels when compared with others of their age, experiences, or environments. Outstanding abilities are seen within students' general intellectual aptitudes, specific academic abilities, and/or creative within a specific domain. These students are present not only in the general populace but are present within all protected classes.

Students who are highly capable may possess, but are not limited to, these learning characteristics:

1. Capacity to learn with unusual depth of understanding, to retain what has been learned, and to transfer learning to new situations;
2. Capacity and willingness to deal with increasing levels of abstraction and complexity earlier than other peers;
3. Creative ability to make unusual connections among ideas and concepts;
4. Ability to learn quickly in their area(s) of intellectual strength; and
5. Capacity for intense concentration and/or focus.

The following procedures will be employed to nominate, assess and select students to participate in the program:

Nomination
Referrals are permitted and accepted based on data or evidence from teachers, other staff, parents, students, and members of the community. Nominators will use the district’s nomination form to refer a student to be considered for admission in the program. The information will be collected by highly capable program coordinator for the multidisciplinary selection committee blind (no name) early spring review.

Screening
The district will screen each nominee to identify students who qualify for further assessment. Screening criteria may include the following:

- District benchmark assessments
- State outcome assessments
- Other district assessments (i.e. PSAT, SAT, ACT)

Assessment
The district will obtain written parental permission prior to conducting assessments to determine eligibility for participation in its Highly Capable Program (HCP).

Nominees identified for further testing through the screening process will be assessed using multiple objective criteria. The assessment process shall be bases upon a review of each nominee's capability as shown by multiple criteria, from a wide variety of sources and data, intended to reveal each nominee's unique needs and capabilities. The assessment criterion consists of both qualitative and quantitative instruments and may include:
• CogAT 7
• Teacher reports
• Student work samples
• Student portfolios

Test results will be recorded in the student’s cumulative file.

Selection
A multi-disciplinary selection team composed of a district administrator, psychologist or other individual who can interpret cognitive and achievement test results and a teacher will review data that has been collected for each of the nominated students. The multi-disciplinary selection committee is composed of: A special teacher (provided that if a special teacher is not available, a classroom teacher shall be appointed); a psychologist or other qualified practitioner with the training to interpret cognitive and achievement test results; a certified coordinator or administrator with the responsibility for the supervision of the district's highly capable program; and additional professionals if any, that the district deems desirable.

The multi-disciplinary selection committee will evaluate individual student assessment profile data using a blind (no name) process and make the selection decision based on:

1. A preponderance of evidence from the profile data demonstrating that a student is among the most highly capable;
2. Evidence of clear need for highly capable services; and
3. Determination of which students would benefit the most from inclusion in the district's program.

A single assessment score or indicator will not prevent a student's selection for the HCP; however, individual pieces of evidence, if strong enough, can indicate that the student would benefit from these services. If properly validated test are not available, the professional judgment of the qualified district personnel shall determine eligibility of the student based upon evidence of cognitive and/or academic achievement.

The district will:

A. Notify parents of students who have been selected. Parents will receive a full explanation of the procedures for identification, an explanation of the process to exit a student from the program, the information on the district's program and the options that are available to identified students.
B. Obtain parental permission to place identified students in the program before any special services and programs are provided to the student.
C. Schedule a meeting of all such parents; and
D. Conduct an annual parent meeting to review each student’s educational plan.

Process for Appeal
Parents/legal guardians have the right to appeal the Multi-Disciplinary Selection Committee's decision. Individuals appealing the selection committee's decision must submit a completed appeals form or letter requesting review of selection/placement decision. The written request must include reasons for the appeal and, to support reconsideration, provide additional evidence.
of significantly advanced cognitive or academic levels and/or outstanding intellectual, academic, or creative abilities.

The appeal request and supporting evidence must be submitted to Kathlynn Sloop; Highly Capable Program Coordinator; 4855 Evergreen Way, Washougal, WA, 98671, within ten (10) school days of the Multi-Disciplinary Selection Committee’s decision notification.

The district’s appeals committee composed of Administrator from the district office and Multidisciplinary Selection Committee Members will review the student's file, assessment profile data, and additional evidence provided in the request for appeal.

The decision of the Multidisciplinary Selection Committee may include:

- Upholding the original decision of the Multidisciplinary Selection Committee;
- Reversing the decision of the Multidisciplinary Selection Committee;

A decision will be made within thirty (30) school days after receipt of written request for reconsideration. The parent/legal guardian will be notified of the decision in writing. The decision of the Appeals Committee is final.

**Exit Process**

The exit process may be initiated for students who no longer demonstrate a need for highly capable program services. The request may be made by a teacher or program administrator for placement discontinuation. The Multi-Disciplinary Selection Committee will convene a meeting to review the student’s profile to determine if the student qualifies for program services based on assessment data and selection criteria. The multi-disciplinary selection committee may request additional evidence of student capabilities and/or willingness to participate in the program. If the committee determines that the student no longer qualifies for highly capable program services, it may be recommended that the student exited from the program. The parent will be notified in writing of the committee’s decision and of the appeal’s process.

A parent/legal guardian may request that the student be withdrawn from the program, or a student 18 years or older may request a withdrawal from the program. A Meeting will be convened by the Highly Capable Program Coordinator/Director to discuss the request. If the parent/legal guardian desires to withdrawal a student from the program, the student will be exited from the program on the date parents/guardian signed program exit form. If a student withdrawals from the program student must complete the nomination process again.

**Program Design**

The district will make a variety of appropriate program services to students who participate in the program. Once services are started, a continuum of services will be provided to identified students in grades K-12. The district will keep on file a description of the educational programs provided for identified students. The district reviews services at least annually for each student to ensure that the services are appropriate.

**Reporting**

Identified students will be assigned the appropriate CEDARS Gifted value(s) in the district's student information system for the end-of-year reporting activities.
The superintendent or designee will provide an end-of-the-year report to the Office of Superintendent of Public Instruction (OSPI), which includes

- Number of students served by grade level K-12
- Student demographic information
- Survey to parents to determine if students who are highly capable met the goals set and if the programs provided met the academic needs of these students;
- Number and content of professional development activities provided for special teachers and general education staff;
- Program evaluation data and, if needed, program changes that will be made based upon this information; and
- Final Fiscal report that reports on activities and staff funded by this program.
