Washougal School District 112-06

Policy Type: Executive Responsibilities 2 (Emergency Superintendent Succession)

Board Review/Approval Date: September 9, 2014

In order to assure steady district operations in the event of a sudden or unexpected loss of services provided by the Board’s superintendent, the superintendent will train and orient appropriate licensed staff to execute the duties of superintendent for the district and to support the work of the school board for a limited period of time. The superintendent will develop a plan to be approved by the board that outlines the procedures for the assumption of the role of superintendent on an interim basis.

<tr>
<td>maintain an approved plan that provides for ongoing training and orientation for those identified to maintain the executive officer leadership needed to run the district and to support the work of the school board for a given period of time.</td>
<td>Proposed Plan Details: David Tudor, Les Brown, Allan Fleck, Joe Steinbrenner, Brian Wallace, and Marian Young are prepared to assume the responsibilities of the superintendent on a short-term basis to assure that district activities and support for public board meetings continue. Depending on the specific issues or requirements that might occur during the superintendent’s temporary absence, each of these individuals holds knowledge and expertise that would be needed to facilitate the required leadership. David, Les, Allan, Joe, Brian, and Marian constitute the District Executive Team. They are briefed weekly on the key work occurring in the district and on the work of the board and pending agenda for board</td>

Proposed interim:
David Tudor

Action Plan:
If the superintendent is to be absent from the district for a short period of time, I will appoint an acting superintendent for the duration of my absence. The superintendent will notify the Leadership Team and the Board Chair of my absence and who has been given the authority of the superintendent during the time I am away.

If the superintendent is incapacitated an executive director will contact the board president to develop a plan, including the district Executive Team and Cassi Marshall. The full board will be notified immediately after the board president has been contacted. A qualified interim superintendent will be appointed by the board as soon as practical.

A communication plan will be developed by the board chair and executive directors that includes the guidance of Les Brown, Jodi Thomas, ESD 112, at 750-7500 (work) or 606-9761 (cell) and Rene’ Carroll 360-607-5990 (cell). The communication plan will include immediate notification of the central office staff, and district leadership team, and district staff prior district contact of the media.

Executive Team members will adjust their work calendars as needed to assume the superintendent’s duties associated with district operations, leadership supervision, policy management, and board operations.

The executive team will identify what additional assistance or staff is needed by the district during the emergency period of time when the district is without a superintendent, and this will be communicated to the board president.

The board president will contact WSSDA to communicate the need to secure interim superintendent leadership until a regular superintendent can be hired to the position through a process designed by the school board of directors.
