We can save lives and stop COVID-19 if each of us does our part. The Washougal School District is following physical distancing directives and student health mandates from Washington State Department of Health and Clark County Public Health as part of the collective effort to combat this disease. Protecting staff and student health, and the health of your families and friends, will take a commitment from each one of us.

Per the State of Washington Phased Reopening for School Districts, school districts require that students and staff receive a health screening before entering a school each day. The Department of Health and Labor and Industries allows health screening to be performed at home (before the school day) as verified by a parent or guardian. An attestation form is included below and must be on file at your student's school.

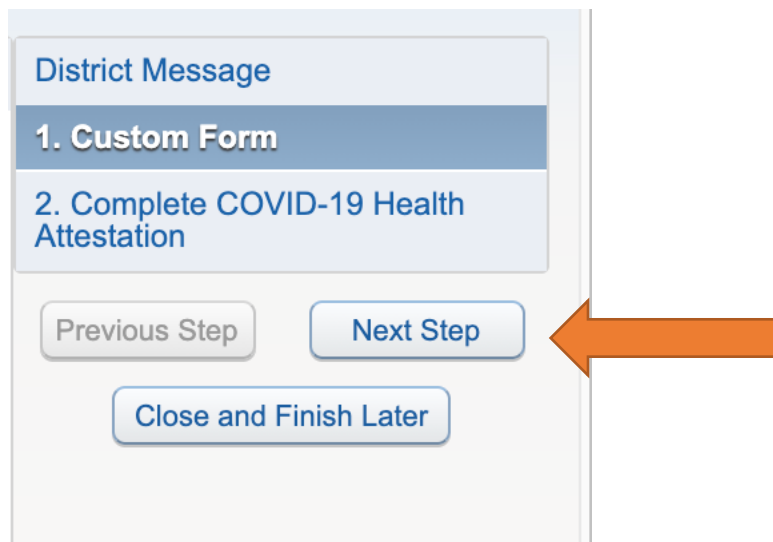

Under the direction of the Washington State Department of Health, the Washougal School District is requiring daily COVID-19 symptoms checks of your student prior to leaving to school each morning. This requirement is to ensure the safety and public health of our Washougal Schools and our greater Washougal community.

I attest that I will check my student daily for COVID-19 symptoms (shown at right). I will not send my student to school: (1) with symptoms, (2) if they have been identified as a close contact with a confirmed case of COVID-19, (3) if they have been COVID-19 tested in the last 10 days, or (4) if they have been told to self-monitor, isolate or quarantine.
