Setting up
teachers for
evaluation

A quick-start guide for Principals and School Administrators of eVAL to use as they assign teachers to their evaluators and identify their evaluation cycles for the upcoming year

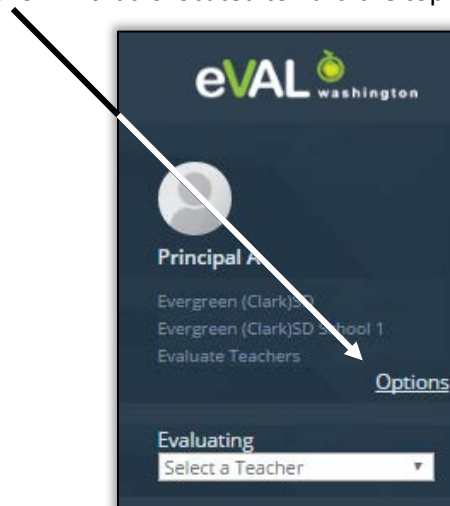

Background

A Principal or School Administrator of eVAL can assign each teacher to their evaluator and identify their evaluation cycle (comprehensive or focused) for the year. In order for the Principal and/or the School Administrator of eVAL to be able to carry out these tasks, both of the following conditions must be met:

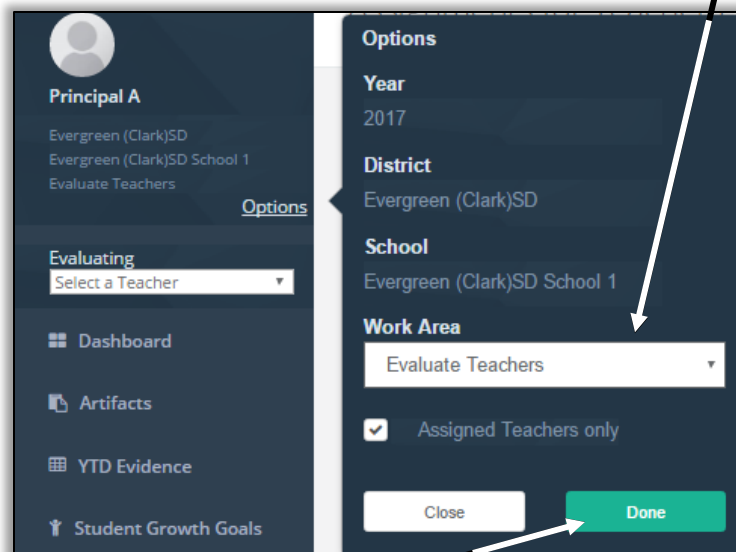

- The District Security Manager must have set up both the Principal and the Teacher correctly in the EDS System and assigned each of them their correct roles ... and ...
- The District Administrator of eVAL must have delegated the responsibility of **Assignments** to the **School** level so that the **Principal or the School Administrator of eVAL** can carry out the assignments of each teacher's evaluator and their evaluation cycle.

Steps for the Principals and/or School Administrators

1. Login to eVAL. Click on the **Options** link that is located toward the top of the gray vertical menu bar.

2. In the space that appears to the right, make sure that the **Work Area** says **Evaluate Teachers**. If it doesn't, use the small triangle in the pull-down menu for the white field, and choose **Evaluate Teachers**.

Then click on the green **Done** button.

3. Click on the **Setup** menu item in the gray vertical menu bar. It will be the next-to-the-last menu item listed.

4. The **Setup** menu will expand and a green marker will appear to the left of the **Setup** menu, indicating that menu is now the active menu. In addition, two sub-menus will appear: **Prompts** and **Assignments**.

5. Click on the **Assignments** sub-menu. The large white workspace for teacher assignments will appear on the right, and will display a table of information for all of the teachers assigned to that school.
