

YouTube Bypass - Fortiguard Web Filter Instructions – Students

Using the Fortiguard process to bypass the Web Filter for Audio/Visual Sites:

When browsing to a video on youtube, you will get a page that says it is blocked. Click Override on this page

On the next page, enter your username and password. First_last (not your email)
Password should be the one you use to log into the proxy

Web Filter Block Override

If you have been granted override creation privileges by your administrator, you can enter your username and password here to gain immediate access to the blocked web-page. If you do not have these privileges, please contact your administrator to gain access to the web-page.
