The superintendent, as executive officer of the District, is responsible for the administration of the schools under applicable laws and District policies. The Board retains the legal responsibility for the Washougal School District and its credibility, which is directly impacted by the leadership of the superintendent and the performance of District staff and students. The guidance communicated in Executive Responsibilities 1 both inspires and compels the superintendent to exercise and model professional and ethical behavior related to the district's interaction with, and support for, students, employees, parents, and community members. It requires that the superintendent ensure that district practices are in compliance with policy and law, and that she utilizes the authority of the position to meet these standards.
